SERIES CD-20**

CEILING SUSPENSION SYSTEM SERIES CD-20

SturFrame Ceiling Suspension System Series CD-20 is designed for those where maximum use of ceiling voids is required or due to limitation of the installation areas for fixing ceiling boards with span up to 2 metres. It's most suitable for the corridor in office, hotel, hospital and school etc.

CHARACTERISTICS

- Simple but strong construction
- Lightweight and durable
- Rust proof and hot-dip galvanized steel
- Quick and easy installation so as to save time and labour cost
- No vertical hanging bolt and rod is required for span less than 2 metres
